The Southern California Chapter of the American Vacuum Society held their annual Equipment Exhibition and Short Course Program at the Holiday Inn Buena Park on Tuesday, October 1, 2019.

With over 20 exhibitors and attendees from Lawrence Livermore National Labs, Tri Alpha Energy, KLA Tencor, View, Medtronic, Statek and more, the show drew companies from as far as Mississippi and as close as an exit away on the freeway!

Leybold USA offered a free Helium Leak Testing Tutorial that covered the basics of helium leak detection and techniques for optimal leak detection for different applications.

Steve Hendren of AstroPak was the instructor and led the participants though a hands-on training using Leybold’s latest Phoenix 4.0 leak detector.

In conjunction with the equipment exhibition, our short course program included an Overview of Vacuum Technology and Controlling Contamination in Vacuum Systems, both taught by Tim Gessert.

Next year’s exhibition is planned for October 5-7th, 2020. Based on exhibitor feedback, we are considering locations both in Buena Park (the same venue as our last 3 shows) or in Pasadena or Irvine. Please see our opinion poll on page 2 to provide your feedback by January 31st, 2020!
Opinion Poll: What can we do for YOU in 2020?

1. Which location is most attractive to you for our 2020 Equipment Exhibition, Short Course Program, and Student Poster Session?
   A. Holiday Inn, Buena Park
   B. UC Irvine
   C. CalTech (or nearby venue in Pasadena)

2. What would incentivize students to participate in a student poster session?
   A. Prizes
   B. Judges
   C. Oral Presentations
   D. Other: ___________________________________________

3. What short course topics most interest you?
   ______________________________________________________
   ______________________________________________________
   ______________________________________________________

4. What events, networking opportunities, or other ideas would strengthen the Southern CA AVS Chapter?
   ______________________________________________________
